Program facts

- 73% of our patients with brain injuries in 2019, return to home once they have achieved their established goals.
- 13% of our patients with brain injuries in 2019, were discharged to a skilled nursing facility.
- The Advocate Lutheran General Hospital rehabilitation program exceeds regional and national averages in achieving independence with mobility, dressing, grooming, speech, language and mental skills.
- Our rehab team has the skills and capabilities of treating patients following a brain injury as we serve more disabled and medically complex patients than those served in other facilities in the region and nation.
- It is not uncommon for some patients to need additional medical attention and our physician can transfer patients to a medical floor in the hospital, if needed. 14% of our patients with brain injuries transferred to a medical floor in 2019.
- The overall patient satisfaction for 2019 was in the top 10 percent of the nation. Our patient satisfaction for patients with brain injuries was 92% in 2019.
