

# Right Care Right Place

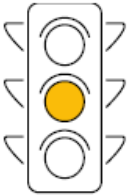

Get the right care where and when you need it.

## Green Zone: See your primary care physician or nurse practitioner (PCP)

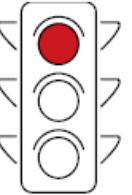

Schedule an appointment for:

- Checkups, immunizations, health screenings
- Chronic conditions such as diabetes, high blood pressure, asthma, emphysema, heart disease
- Fever, sore throat, cough, ear pain, colds and flu
- Urinary tract infections
- Injuries such as sprains, cuts
- Rash
- Other infections
- Mild headache
- Vomiting, diarrhea, abdominal pain

## Yellow Zone: Get immediate care

You're unable to reach your PCP and you need care for an illness or injury that cannot wait. (See Reverse)

## Red Zone: Go to Emergency Department or call 911

Emergency room copay applies.

You have severe life-threatening symptoms such as:

- Chest pain or pressure
  - Choking
  - Extreme pain
  - Serious injury to the head, neck or back
  - Suspected poisoning or overdose from medicine or alcohol\*
  - Stroke symptoms such as loss of balance, face drooping, one-sided weakness, speech or vision difficulty, severe headache
  - Severe stomach pain
  - Severe burn
  - Suicidal thoughts or ideas\*\*
  - Trouble breathing
  - Uncontrolled bleeding
  - Uncontrolled shaking or seizure
  - Loss of consciousness (passed out)
- **If your child is younger than one month** – and has a temperature of 100.4°F or higher.
  - **If your child is not acting right** – not making eye contact, feels limp or has a strange cry.
  - **If your child is having difficulties breathing or starts to turn blue.**
  - **If your child has uncontrolled shaking and you suspect a seizure.**
  - **If your child shows signs of dehydration** – not making tears, has a dry mouth and dry diapers.

\*Illinois Poison Center: 800-222-1222    \*\*National Suicide Prevention Lifeline: 988

**Please call your regular doctor or nurse practitioner as soon as possible after an emergency department or immediate care visit so they can help you with any follow-up care.**

Talk to your doctor if you have any questions about these options.  
To find a doctor, go to [aah.org/primarycare2](http://aah.org/primarycare2) or call 855-456-5687.
